A JOINT RESOLUTION
Proposing to amend Article I, Section 17(A) of the Constitution of Louisiana, relative to jury trials in criminal cases; to require unanimous vote of twelve jurors in all felony cases for offenses committed on or after January 1, 2019; to provide for submission of the proposed amendment to the electors; and to

levy following reappraisal, the collector shall use the property's assessed value from the previous year, which shall be called the base amount as used in this Sub-paragraph, and shall increase the portion of the assessed value of the property used to calculate ad valorem taxes by adding an amount which is equal to one-fourth of the amount of the increase in the property's assessed value as a result of the reappraisal to the base amount. This resulting amount shall constitute the property's taxable value and shall be used solely for purposes of calculating ad valorem taxes for that taxable year.
(ii) For purposes of calculating the ad valorem taxes on the property in the second levy following reappraisal, the collector shall increase the portion of the assessed value of the property used to calculate ad valorem taxes by adding an amount which is equal to one-half of the amount of the increase in the property's assessed value as a result of the reappraisal to the base amount. This resulting amount shall constitute the property's taxable value and shall be used solely for purposes of calculating ad valorem taxes for that taxable year.
(iii) For purposes of calculating the ad valorem taxes on the property in the third levy following reappraisal, the collector shall increase the portion of the assessed value of the property used to calculate ad valorem taxes by adding an amount which is equal to three-quarters of the amount of the increase in the property's assessed value as a result of the reappraisal to the base amount. This resulting amount shall constitute the property's taxable value and shall be used solely for purposes of calculating ad valorem taxes for that taxable year.
(iv) In the fourth levy following reappraisal, the collector shall calculate ad valorem taxes based on the property's full assessed value.
(b) The provisions of this Subparagraph providing for a phase-in of additional ad valorem tax liability following reappraisal shall cease to apply upon the transfer or conveyance of ownership of the property. Following a transfer or conveyance, the collector shall calculate ad valorem taxes based on the property's full assessed value.
(c) Property subject to the provisions of this Subparagraph shall not be subject to reappraisal by an assessor until after the four-year phase-in of the amount of the increase in the property's assessed value is complete.
(d) Notwithstanding any provision of this constitution to the contrary, the increase in assessed valuation of property phased-in under this Subparagraph shall be included as taxable property for purposes of any subsequent reappraisals and valuation for millage adjustment purposes under Article VII, Section 23(B) of this constitution. The decrease in the total amount of ad valorem tax collected by a taxing authority as a result of this phase-in of assessed valuation shall be absorbed by the taxing authority and shall not create any additional tax liability for other taxpayers in the taxing district as a result of any subsequent reappraisal and valuation or millage adjustment. Implementation of this phase-in of increase in assessed valuation shall neither trigger nor be cause for a reappraisal of property or an adjustment of millages pursuant to the provisions of Article VII, Section 23(B) of this constitution.
(e) The provisions of this Subparagraph shall not apply to the extent the increase was attributable to construction or improvements to the property.

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state of Louisiana at the statewide election to be held on November 6, 2018.

BY SENATORS MORRELL AND WALSWORTH
A JOINT RESOLUTION
Proposing to amend Article VII, Section 18(A) and (F) of the Constitution of Louisiana, to provide relative to ad valorem taxation; to provide for the reappraisal of property subject to ad valorem taxation; to require the phase-in of the amount of an increase in assessed value of certain property following reappraisal under certain circumstances; to provide for certain limitations; and to specify an election for submission of the proposition to electors and provide a ballot proposition.
Section 1. Be it resolved by the Legislature of Louisiana, two-thirds of the members elected to each house concurring, that there shall be submitted to the electors of the state, for their approval or rejection in the manner provided by law, a proposal to amend Article VII, Section 18(A) and (F) of the Constitution of Louisiana, to read as follows:
§18. Ad Valorem Taxes
Section 18.(A) Assessments. Property subject to ad valorem taxation shall be listed on the assessment rolls at its assessed valuation, which, except as provided in Paragraphs (C), (E), and (G), shall be a percentage of its fair market value. The percentage of fair market value shall be uniform throughout the state upon the same class of property.

(F) Reappraisal. (1) All property subject to taxation shall be reappraised and valued in accordance with this Section, at intervals of not more than four years.
(2)(a) In the year of implementation of a reappraisal as required in Subparagraph (1) of this Paragraph, solely for purposes of determining the ad valorem tax imposed on residential property subject to the homestead exemption as provided in Section 20 of this Article, if the assessed value of immovable property increases by an amount which is greater than fifty percent of the property's assessed value in the previous year, the collector shall phase-in the additional tax liability resulting from the increase in the property's assessed value over a four-year period as follows:
(i) For purposes of calculating the ad valorem taxes on the property in the first

levy following reappraisal, the collector shall use the property's assessed value from the previous year, which shall be called the base amount as used in this Sub-paragraph, and shall increase the portion of the assessed value of the property used to calculate ad valorem taxes by adding an amount which is equal to one-fourth of the amount of the increase in the property's assessed value as a result of the reappraisal to the base amount. This resulting amount shall constitute the property's taxable value and shall be used solely for purposes of calculating ad valorem taxes for that taxable year.
(ii) For purposes of calculating the ad valorem taxes on the property in the second levy following reappraisal, the collector shall increase the portion of the assessed value of the property used to calculate ad valorem taxes by adding an amount which is equal to one-half of the amount of the increase in the property's assessed value as a result of the reappraisal to the base amount. This resulting amount shall constitute the property's taxable value and shall be used solely for purposes of calculating ad valorem taxes for that taxable year.
(iii) For purposes of calculating the ad valorem taxes on the property in the third levy following reappraisal, the collector shall increase the portion of the assessed value of the property used to calculate ad valorem taxes by adding an amount which is equal to three-quarters of the amount of the increase in the property's assessed value as a result of the reappraisal to the base amount. This resulting amount shall constitute the property's taxable value and shall be used solely for purposes of calculating ad valorem taxes for that taxable year.
(iv) In the fourth levy following reappraisal, the collector shall calculate ad valorem taxes based on the property's full assessed value.
(b) The provisions of this Subparagraph providing for a phase-in of additional ad valorem tax liability following reappraisal shall cease to apply upon the transfer or conveyance of ownership of the property. Following a transfer or conveyance, the collector shall calculate ad valorem taxes based on the property's full assessed value.
(c) Property subject to the provisions of this Subparagraph shall not be subject to reappraisal by an assessor until after the four-year phase-in of the amount of the increase in the property's assessed value is complete.
(d) Notwithstanding any provision of this constitution to the contrary, the increase in assessed valuation of property phased-in under this Subparagraph shall be included as taxable property for purposes of any subsequent reappraisals and valuation for millage adjustment purposes under Article VII, Section 23(B) of this constitution. The decrease in the total amount of ad valorem tax collected by a taxing authority as a result of this phase-in of assessed valuation shall be absorbed by the taxing authority and shall not create any additional tax liability for other taxpayers in the taxing district as a result of any subsequent reappraisal and valuation or millage adjustment. Implementation of this phase-in of increase in assessed valuation shall neither trigger nor be cause for a reappraisal of property or an adjustment of millages pursuant to the provisions of Article VII, Section 23(B) of this constitution.
(e) The provisions of this Subparagraph shall not apply to the extent the increase was attributable to construction or improvements to the property.

Section 2. Be it further resolved that this proposed amendment shall be submitted to the electors of the state of Louisiana at the statewide election to be held on November 6, 2018.
Section 3. Be it further resolved that on the official ballot to be used at said election there shall be printed a proposition, upon which the electors of the state shall be permitted to vote YES or NO, to amend the Constitution of Louisiana, which proposition shall read as follows:
Do you support an amendment to require that any reappraisal of the value of residential property by more than 50%, resulting in a corresponding increase in property taxes, be phased-in over the course of four years during which time no additional reappraisal can occur and that the decrease in the total ad valorem tax collected as a result of the phase-in of assessed valuation be absorbed by the taxing authority and not allocated to the other taxpayers? (Amends Article VII, Section 23(A) and (F))

Motion by Mr. Smith, seconded by Mr. Stubblefield to adopt the following: 2018 Richland Parish Language Access Plan for Limited English Proficiency Persons Introduction

Title VI of the Civil Rights Act of 1964, 42 U.S.C. 2000(d) and Executive Order 13166 require that recipients of federal funds take responsible steps to ensure meaningful access by persons with Limited English Proficiency (LEP persons). The Richland Parish is a sub-recipient of federal funds for a portion of its programs and, thus obligated to reduce language barriers that can preclude meaningful access by LEP persons to OCD Programs. The Parish has prepared this Language Access Plan (LAP), which defines the actions to be taken to ensure meaningful access to services, programs, and activities on the part of persons who have limited English proficiency.

In preparing this LAP, the Parish conducted a four-factor analysis, considering (1) the number or proportion of LEP persons eligible to be served or likely to be encountered by the OCD or its federally funded programs, (2) frequency with which LEP persons come into contact with the Parish's programs, (3) nature and importance of the program, activity, or service to people's lives, and (4) resources available and costs. The Parish will review and update, on an annual basis, this LAP in order to ensure continued responsiveness to community needs.

II. Description of Covered Programs
 The Richland Parish can apply for the following federal and state grant programs:

A. Louisiana Community Development Block Grant Program (LCD130)
 The LCDBG Program is a federally funded (HUD) program which provides grants to units of local government in non-entitlement areas for the development of viable communities by providing a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. Grants are made to these communities for primary needs such as potable water, water for fire protection, sewer, streets, and economic development activities.

B. Disaster Recovery Unit (DRU)
 HUD CDBG Disaster allocations dedicated to recovery from Hurricanes Katrina, Rita, Gustav, Ike, and Issac. These funds have and continue to be allocated to housing, infrastructure, economic development and planning programs for recovery in the storm-impacted areas.

C. Local Government Assistance Program (LGAP)
 LGAP funds are used to assist units of local government for needed infrastructure and long-term capital improvements in rural areas. The LGAP Program is designed to fill the gaps where there are no federal or other state funds available

to assist a unit of local government with an identified high priority need. Priority is given to those projects which identify and resolve basic human health and safety needs.

D. Community Water Enrichment Fund (CWEF)
 The purpose of the Community Water Enrichment Program (CWEF) is to assist units of local government with funding for needed infrastructure and long-term capital improvements for potable water projects in rural areas. The CWEF Program is designed to fill the gaps where there are no federal or other state funds available to assist a unit of local government with an identified high priority need for potable water improvements.

Priority is given to those projects which identify and resolve basic human health and safety needs.
 Four-factor Analysis

The following four-factor analysis will serve as the guide for determining which, if any, language assistance measures the Parish will undertake to provide access to the covered programs for LEP persons. Additionally, all future CDBG fund recipients will be required to use the same four-factor analysis prior to the release of funds.

A. Number or proportion of LEP persons eligible to be served or likely to be encountered by the Parish or its federally funded programs. Per the FY 2016 American Community Survey 1-Year estimates, Richland Parish's population is 19,357 (5 years and over). Approximately 19,086 or 98.6% of Richland Parish's population speaks English, and 271 persons or 1.4% speak a language other than English. 202 persons speak Spanish, 53 persons speak other Indo-European languages, and 16 speak Asian and Pacific Islander languages. No other ethnicity has a sizeable limited English proficiency. The table below shows the LEP percentages for each of the above mentioned languages.

Language 1 (name)	Population That Speaks a Language Other Than English	LEP Number	LEP % of Total Madison Parish Population
*Entity Wide:	19,357	271	1.4%
**Project Area:	61	0	0

1. LCDBG — Eligible applicants to the LCDBG program are non-entitlement communities in Louisiana. Sub-recipients must consider the service area of their project/activity to conduct the four-factor analysis.

2. DRU — The DRU translates actions plans into Vietnamese and Spanish based on census data for impacted areas.

3. LGAP — All Louisiana municipalities and parishes are eligible to apply for funds excluding the HUD entitlement cities: Alexandria, Baton Rouge, Bossier City, Kenner, Lafayette, Lake Charles, Monroe, New Orleans and Shreveport.

4. CWEF — All Louisiana municipalities and parishes are eligible to apply for funds excluding the HUD entitlement cities: Alexandria, Baton Rouge, Bossier City, Kenner, Lafayette, Lake Charles, Monroe, New Orleans and Shreveport.

B. Frequency with which LEP persons come into contact with the programs

1. LCDBG — Richland has no non-English speaking persons.

2. DRU — Richland has no non-English speaking persons.

3. LGAP — Richland has no non-English speaking persons.

4. CWEF — Richland has no non-English speaking persons.

C. Nature and importance of the program, activity, or service provided by the program

1. LCDBG — While LCDBG programs deal mostly with public infrastructure, there is some direct benefit to the beneficiaries of sewer and water hook-ups on private property. Gathering of income data in order to determine income level can result in contacting a LEP person(s). Also CDBG has a Citizen Participation requirement in order for Richland to identify the community development needs and priorities. It will be necessary to ensure proper communication in order to complete these tasks.

2. PRU Richland has various types of programs and participates in direct benefit activities. Also, CDBG has a Citizen Participation requirement in order for Richland to identify the community development needs and priorities. It will be necessary to ensure proper communication in order to complete these tasks.

3. LGAP — There is no direct benefit in this program.

4. CWEF — There is no direct benefit in this program.
 D. Resources available and costs to the recipient

1. LCDBG/DRU — Translation services are available at this time by computer. Parish staff will use a computer program for translation of notices and documents into Spanish if needed.

2. LGAP — Same as above.
 3. CWEF — Same as above.
 IV. Actions to be taken by Richland
 After careful consideration of the four-factors identified above, the OCD will take the following actions:

A. Parish secretary will be Language Access Coordinator to serve for all programs:
 B. The Richland LAP will be distributed to all Parish staff members and posted.
 C. The Language Access Coordinator will maintain and be trained to use computer program for translation. After the appropriate language has been identified, the Language Access Coordinator will determine the need for access services as identified either by phone or email, Parish staff shall immediately contact their Language Access Coordinator who will take appropriate action to ensure meaningful communication.
 D. LCDBG applications and major documents such as Substantial Amendments will be published in Spanish on the Parish website if needed. All published Richland citizen participation advertisements will include a statement in Spanish indicating materials are available in Span-
